

**MODEL:** EKO CABLE TRUNKING

**SIZE:** ‘10x8; 12x12; 15x10; 16x16; 20x10; 20x20; 23x23’mm

TECHNICAL SPECIFICATIONS	
Material	Non-Metalic PVC
Resistance to Shock for installation and environment	0,5 J ( Very Light )
Minimum Temperature for storage and transportation	( -25° C )
Minimum Temperature for installation and environment	( -25° C )
Maximum Temperature for installation and environment	( +60° C )
Resistance to Flame	Nonflammable
Electrical Continuity Feature	Non- electrical continuity
Electrical insulation property	Nonconductive
Resistance to external factors	Resistance against ingress of solid objects:IP 4X Resistance against ingress of water: IP X0
According to suspend the system access cover	Freehand lid installation
According to electrically protective separation	No internal protective compartment
According to the intended location of the installation	Can be Installed on Wall and Ceiling
